

Product Improvement Bulletin

111 Series Shave Tools

New Features:

- Directional Arrows help the operator adjust size in the correct direction every time.
- The new series of springs use more durable materials, wire sections and design, along with a better supported spring pocket, to ensure the maximum spring life.
- Tighter dovetail ensures “drag” even in the unclamped state, helping make more accurate adjustments to size. A new leaf clamp design is more resistant to damage.
- Third Clamping Screw ensures a secure grip on roll holder for the entire adjustment range of the shave tool.
